

Audrey Lane

SCHOOL MONOGRAM

At Audrey Lane, designing a “school monogram” is a fun way of saying “we make custom logos”. A school logo design may be guided by the institutes origin, their imagined future, or simply a creative way to display the name. Despite the approach to designing educational logos, they share the important intention of projecting an institutions’ values and beliefs. We take that a step further by recreating these unique logos with tile. We look forward to helping you promote life long learning from early education to universities and clubs.

The Bronxville School

An early education school located in the Bronxville union free school district in Bronxville, NY.

Specified by Spartan Surfaces

Project Details

- 5 color custom logo including real brass (key)
- AutoCad file provided by client with required dimensions
- Final layout provided for client approval
