## CUSTOM MADE

Let's just say that "Custom" is our middle name. We love being your go-to for all things custom, so we make the process as simple as possible. We'll work together from start to finish, from designing a pattern and finalizing colors to hashing out the size and other details. Then, we'll produce your one-of-a-kind pattern to order!

### Elevator Numbers

Waterjet cut porcelain tile used for the elevator lobby walls at the Methodist University Hospital in Memphis, TN.  
Designed by HKS, Inc.

### Project Details

- 12x24 porcelain tile in 2 colors
- AutoCad file provided with required dimensions for each elevator lobby number
- Final layout provided for client approval
- Produced with 1/8" grout joint per contractor

# FEATURED PROJECTS

Designed by Design Poole, Inc.

### Project Details

- 15 foot diameter medallion
- Conceptual drawing provided by design firm
- Final layout provided for client approval
- Accommodated for different thicknesses of multiple materials

## The Collins

Simple and modern rug inlay made from porcelain tile for The Collins multifamily project in Huntsville, AL.

Designed by Focus Design Interiors.

### Project Details

- Made from 24x24 porcelain tile
- Brand logo and font provided by designer
- Originally designed as a mosaic, then redesigned to be more cost effective
- Assembled in sections and labeled for installation

## Brandywine Living

Custom borders and medallions made from a combination of natural marble and porcelain tile designed to enhance the grand entrance of Brandywine Senior Living in Potomac, MD.

Designed by Niles Bolton Associates.

### Project Details

- Made from gold and green marbles, combined with multiple marble-look porcelain tiles
- Bespoke 18" wide border and center medallion designed from client concept photo
- AutoCad file provided by client
- Intricate installation guide provided for flooring contractor

# STEP BY STEP PROCESS

## 1. Concept

To start the process, send an email with your concept including images, logos, fonts, preferred colors and size information.

## 2. Design

Collaborate with the Audrey Lane design team to create your custom pattern. We will send material samples and provide final artwork for approval before production.

## 3. Install

An installation guide will be provided, as well as contractor support if needed.
